

ASCOT LUX™ 400/500/600

The fireplace insert decoflame® Ascot Lux™ is the solution for owners of traditional fireplaces who are not only tired of burning wooden logs, but also wish to go for a greener, more environmentally friendly alternative.

The models of the Ascot Lux™ series come in three different dimensions as standard and feature two glass screens: one to the front and one to the back. They are essential in order to stabilise the flames and keep the bioethanol consumption to a minimum.

The Ascot Lux™ features the design-protected decoflame® burner with adjustable flame intensity.

STANDARD FINISH
