

## ROUND BLACK BIOETHANOL FIREPLACE

BIO-10-003BK

Here you get a black round wall-mounted bioethanol fireplace from ScandiFlames, designed to be mounted on any type of wall that can support its weight. Being wall-mounted makes it ideal for rooms with limited floor space. The manually operated bioethanol burner holds 1.5 liters of fuel, burns for approximately 6 hours, has an adjustable flame, and creates up to 1.92 kW of heat—usually enough to comfortably heat a room of 25-30 square meters. The fireplace doesn't require any chimney or electrical connection, ensuring flexible and easy installation.
