

ALTAR - CAST IRON BIOETHANOL STOVE

BIO-20-903

Here you get a compact bioethanol fireplace in a classic wood stove design made of cast iron, featuring fine details and carvings. The included 1.5-litre burner can burn for up to 5 hours per refill and produces around 2.1 kW of heat. The altar is freestanding and manually operated, requiring no chimney or electrical connection, making installation easy and flexible. It also has a decorative top that can be removed, allowing the flat surface underneath to be used for heating a teapot or similar items, adding extra functionality to your bioethanol fireplace.
