

## HONOLULU - WHITE FREESTANDING BIOETHANOL STOVE

BIO-20-326

Honolulu is a compact, freestanding bioethanol fireplace designed to resemble a classic wood-burning stove by ScandiFlames. Crafted from powder-coated steel with a sleek white finish, its small size makes it an ideal fit for traditional fireplace hearths and surrounds where the flue has been closed off. The fireplace features a 1.0-litre burner, providing up to 5 hours of burn time per filling, and a maximum heat output of approximately 1.6 kW. This output is typically sufficient to create a comfortable temperature in rooms measuring 15-20 square meters.

### TECHNICAL SPECIFICATIONS

#### Key Specifications

Product type	Bioethanol Stove
Brand	ScandiFlames
Use	Indoor
Warranty	2 years

#### Dimensions & Weight

Length/Width	45 cm
Height	59 cm
Depth	35 cm

#### Technical Specifications

Minimum room size	45 cubic metres
Fuel	Bioethanol
Burning time up to	5 hours
Capacity	1 Litres
Heat output (max)	1,6 kW
Consumption	0.2 L/h

#### Burner Specifications

Burner Type	Manual Burner
Adjustable flame	Yes
Control	Manual
Burner Model	1.0 Litre Deluxe
Flame length	13 cm
Remote control	No

#### Material and Appearance

Material	Steel
Colour	White
Finish	Powdercoated

#### Installation Details

Flue/Chimney	Not Required
Power requirements	Yes
